 South Mountains

 Conrad Weiser High School  
 which this 1966 WEICON represents.

**SOME PEOPLE THINK ALL  
ANNUALS ARE ALIKE.**

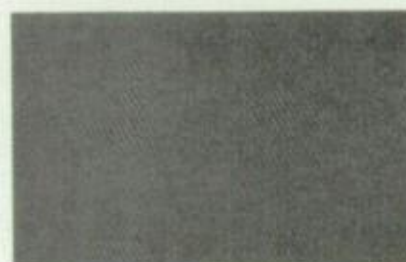

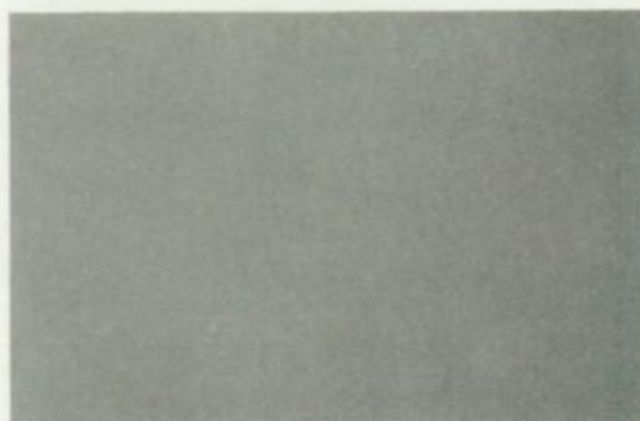

## NOT SO.

An annual is only as good as the ingredients that go into it. It is a book which derives its contents from the happenings at a particular school during an assigned calendar year. Its purpose is to record and entertain and if its cost is four and a quarter dollars, it should give four and a quarter dollars worth of recording and entertaining.

The ingredients of this 1966 WEICON are, primarily, those which the staff feels will contribute toward making this annual truly your companion!

To the Seniors:

Congratulations to each one of you as a member of the Class of 1966 of the Conrad Weiser Area High School. This distinction indicates the continuing confidence your teachers have in you. We trust that the work in the classroom, participation in activities, and the cultural environment of our school have equipped you well to cope with the problems of a rapidly changing world.

As you look forward to graduation you are approaching the last milestone of free public education, a high school diploma. This achievement, which is of more than ordinary significance, represents not only your own application of time and effort but also the considerable investment of your community, the help and guidance of teachers, and the sacrifices of your parents. By being the best person you are capable of being -- both morally and spiritually as well as in your chosen vocation -- you will assure yourself a successful and satisfying life. More than that, you will be showing parents, friends, and neighbors that today's youth are worthy of their confidence. In your heart you will ever be grateful to your donors for the opportunities they provided.

May your achievement henceforth bring personal success and reflect credit upon your Alma Mater.

With sincere best wishes,

*Walter A. Rohrbach*

# ADMINIS- TRATION

Each year as the members of the senior class approach that last day of their public school career, I usually reflect on the experiences the staff and myself have encountered in our relationships with the class. We believe the vast majority of our individual contacts have been rewarding. However, continued reflection causes one to wonder if each graduate has truly caught the spirit of integrity we believe is inherent in Conrad Weiser. Has each senior completely accepted the true values of national loyalty, personal and civic honesty, and high moral-ethical standards which are hallmarks of an educated person? The degree to which you have accepted these challenges is the measure of our success at Weiser. The degree to which you have not accepted these challenges is equally a measure of our failure. We wonder then at what point on these scales does your future appear to be in balance? As you reach out to receive your diploma I hope your actions will continue to be an indicator of your acceptance of the high standards we have endeavored to impart to you over the years.

Dr. Sidney B. Willar  
High School Principal

## ON EDUCATION

Education should not be a weathervane  
responsive  
to every variation  
of popular whim

It must at times give you, not  
what you want, but  
what you need

The future of the Nation depends  
absolutely  
upon the continual education  
of its citizenry  
and therefore: Education --  
its functional processes must be  
translated  
into practical accomplishments  
humanized

by the Institutions of Society  
This is your life's great concern  
Best wishes to the Class of 1966  
for a life filled  
with opportunities  
for greatness

This is the Data Processing Age. 1956-66 marks the year when Conrad Weiser Schools installed automatic accounting equipment which makes it possible to do many things otherwise impossible. Nationwide use of electronic equipment has eliminated many unskilled positions in the labor force so that today "White Collar" workers outnumber others. Personnel is necessary to plan and operate the modern equipment. Seniors, as well as others, must be prepared to meet this technological situation. It will require an ever-continuing process of education in order to adjust to these changing conditions of society. If you accept this challenge and its inherent responsibilities, success and happiness will follow. Congratulations to the graduates and best wishes for the future.

# MATH DEPARTMENT AMONG THE BEST IN BERKS

One hears, -- "What is mathematics?" It is the queen of sciences, the universal language, but in our world of today, our modern society demands a modern mathematical curriculum. The staggering expansion of mathematical knowledge during the last 25 years has required a new approach to mathematics. Widespread experimentation has given us some concrete answers about mathematical structure as applied to mathematics as a cultural as well as an applied subject.

Above all, we know that a more rigorous program is essential, one that puts sharper emphasis on important mathematical concepts and terms. We must develop a sure foundation for the more demanding mathematics now being taught in colleges and used in industry.

Mr. Hess

R. Frey and S. Koller examine one of the more interesting apparatus to be found in Mr. Hess room.

## NEW ENGLISH COURSE IS SUCCESSFUL

"The English program aspires to the intelligent use and understanding of language and literature on the part of all students. Specifically it aims to set high standards of achievement in language, literature, and composition for those who are college bound, and to give the non-college bound understanding of language and insight into the finer areas of world literature and culture."

Mr. Gruber

Senior High: Mrs. Winter, Mr. Shaner, Mr. Gruber, and Miss Buhay.

Christine Boyer and Michael Firestine enact the love scene from "Romeo and Juliet."

You wouldn't believe what "Peanuts" found in Mr. Breininger's back room.

B. Yoder, S. Speicher, A. Benz, and S. Hughes sport a respectable display of fungi.

Scientific knowledge is necessary for the continuance and progression of modern society. Therefore our science classes provide a meeting place where scientific information may act upon youthful intellect and help the students better understand the world in which we live and the outerspaces to which we aspire.

We are interested, however not in a nation of scientists, but in a science-minded citizenry.

Mr. Breininger

Mr. Gosch demonstrates a physics law to some of his students.

Beverly Lutz and Thomas Gerhart decorate the bulletin board for Christmas in German class.

## LANGUAGES BRING FOREIGN CULTURES CLOSE TO US

The study of foreign languages assumes increasing significance as the nations of the world are drawn into closer relationship, and an increasing number of Americans feel the need to be able to communicate in a foreign language.

With this in mind the Conrad Weiser Area Schools offer four years of German and four years of Spanish in the modern language field, and two years of Latin as a classical language.

## HISTORY

### THE KEY TO KNOWLEDGE

"History will help you, a free American, to understand more clearly what is going on around you, and to realize that what happens anywhere in the world can affect your whole way of life.

Out of the past, the world of today has grown and future worlds will grow. The more one knows about the past, the better he is able to function in the present, and the more enjoyment he can get from everyday living."

## COMMERCIAL COURSE REMAINS POPULAR.

The typewriter is a very intricate machine dependent on the proper functioning of its parts. But machines and society are dependent upon people who understand machines, people who are capable of assuming responsibility, people who can organize details. The ability to accomplish this involves more than learning to type and write shorthand; it involves training in order and discipline. The commercial student works to become as coordinated and effective in his work as the machines he knows so well.

Commercial teachers: Mrs. Himmelberger, Miss Yost, and Miss Hagan.

# STUDENTS LEARN FIRST AID

The rewards for physical competence are many, but recognition aside, the motivating factor for physical fitness should be self-respect. Through a knowledge of our physical framework, our complex body mechanisms, we can learn to respect the many physical capacities we have. Such a respect should result ultimately in our desire to develop these capacities to their fullest.

C. Holzman, K. Decker, S. Kline, and V. Brossman practice first aid.

## MUSIC

I am invulnerable, I see no foe. I am  
related to the earliest times and to the  
latest.

J. Knoll conducts the jr. band.

The 7th & 8th grade chorus during assembly.

This year, though it had handicaps, the music department flourished. Under the direction of Mr. Mills, the senior marching band did well in all the parades it attended. Mr. Mills also presented the dance band, brass ensemble, and the concert band, at their best, during assemblies and other school functions.

Miss Fidler, a substitute music teacher, did a fine job with the ninth grade chorus' Christmas assembly.

All students and faculty were happy to see Miss Murdough's return. During her first week back in school, she eagerly started work on the show and the spring concert.

## GUIDANCE

This department is perhaps one of the most important in the school. Mr. Shuman and Mrs. Grant are counselors for college-bound students as well as for those who plan to work after graduation.

Beginning with the Sophomores, counseling periods are arranged with the students. They are designed to help the student decide what his plans will be after graduation and how to prepare for them before graduation.

## DRIVER EDUCATION

This compulsory course has greatly insured the safety and good driving sense of all students taking it.

Movies, lectures, and on the road training provide an excellent preparation for young drivers.

Mr. Snyder can always be found either in the car or pushing his cart.

S. Miller took a safety measure before starting, locking the seat belt.

An assembly based on safety was presented to school during the fall.

# STUDENTS USE LIBRARY FACILITIES

Throughout the year the student spends many hours picking out small details for reports, enlarging his knowledge of current affairs, and reading novels for his own pleasure. But perhaps more important is that through reading he may ask himself, "What am I?" The question may arise quite often and finally bring him face to face with self -- that quality which keeps him a distinct individual. He may come to realize that self has meaning only in relation to others, that he is really many different people at many different times.

Weiser's dances are popular school functions  
 Where the student may express his feelings  
 Through dance.  
 He may be an individualist  
 Or a conformist  
 Semi-formal  
 Or informal.  
 Teachers may also enjoy the last drop  
 of punch  
 Or relax at the "Christmas Fantasy".  
 Many hours are spent  
 Preparing for, serving at, and clean-  
 ing up after,  
 But the overall effect makes it very  
 worthwhile.

## HOCKEY

During mid-August a majority of the team members attended a special hockey day camp at the Governor Mifflin School. For five days, under the direction of U.S. Hockey Team players and well-known coaches, the girls concentrated on hockey. Starting with basic drills and calisthenics each facet of the game of hockey was explained and practiced until by the end of the week everyone was in good hockey form. An honor team was chosen by the coaches and Weiser had two participants on this team.

## VARSDITY BASKETBALL

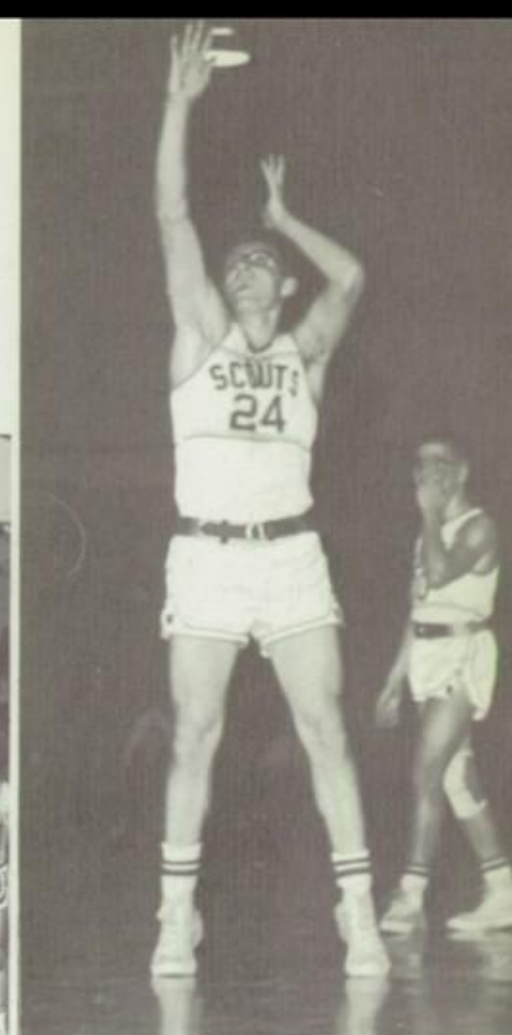

This year's record was by no means an indication of the caliber and ability of our team. We lost close games to many of the top-ranked teams. Injuries were another factor explaining our record.
